Pronouns: He/Him/His. Please tell me yours. ([What's this?](#))

Why use the singular they as the default when pronouns are unknown? ([Answer #1](#) [Answer #2](#))

Go ahead and provide Corbin a very short summary of this work and explain the work is being conducted by CDPHE under a cooperative agreement. Copy Kathie and me on your email to Corbin.

Thanks

Victor

Yeah, offhand we did a preCERCLA screen at VB/I-70 39th Avenue, and a preCERCLA screen that advanced to a PA (haven't sampled yet) at VB/I-70 Brighton Boulevard. I'll be sure to send those, and any others I can think of, to Corbin.

Thanks,
David

Subject: Your Action Please - Current and Planned Activities in Industrial Triangle Area

SLT,

As Deb mentioned during yesterday's SLT meeting, R8 is collaborating with CDPHE, CDOT, and local government agencies on a coordinated approach to environmental and public health protection and community engagement in the so-called Industrial Triangle area (loosely defined within the boundaries of I-270, I-25, and I-70 north of Denver and including the Globeville and Elyria-Swansea neighborhoods). Residents and employees in this area bear a disproportionate burden of environmental pollution with their proximity to numerous high traffic roadways, historic and ongoing industrial activity, large scale construction projects, and Superfund sites. Deb, Andrew, and I met with CDPHE and CDOT last Thursday, July 2nd, and began to learn about the various ongoing and planned activities in the area and expressed R8's support for this community-based approach. The attached initial summary of recent and current EPA activities in the area was quickly put together in preparation for the July 2nd meeting (thanks to those of you and your staff who helped with that effort).

In preparation for future discussions with our government partners, we'd like to ensure that we've captured all current and planned EPA activities in the area. **Please review the attached summary and identify any activities not already included. At this point, 2-3 bullet points summarizing the activity will be sufficient. While a date has not yet been set for the next meeting, a response to me by July 23rd would be helpful.** I have cc'd the R8 EJ Action Team for their information.

Thanks in advance for your assistance with this and please let me know if there are any questions.

Corbin
